Will MODOT please provide complete details regarding the MODOT Gateway Guide Software including all NTCIP MIBs, and custom MIBs? Are there any other non-standard NTCIP items that need to be addressed? Are there any integration issues that manufacturers need to be aware of?

MoDOT Response:

The bidders will need to contact Delcan Corp. directly to most efficiently obtain this information (Dan Bruno, d.bruno@delcan.com, 314-719-6087). We do not have direct access to this information in D6, and a request from us to Delcan would cause unnecessary delay.
